10. Supabase Migrations — Run in SQL Editor

Time needed: ~5 minutes **URL:** https://supabase.com/dashboard/project/iiyzfohpaimkzltovtli/sql/new

The DB password in credentials is stale (automated DB access is blocked). Run these 4 SQL files manually in the Supabase SQL editor in order:

Step 1 — Open SQL editor

Go to: https://supabase.com/dashboard/project/iiyzfohpaimkzltovtli/sql/new

Step 2 — Run each file (copy/paste and click Run)

File 1: `helpfulhomebuyersusa/supabase/migrations/004_hhb_newsletter.sql` Creates `hhb_newsletter_subscribers` table with state tracking and RLS.

File 2: `helpfulhomebuyersusa/supabase/migrations/005_hhb_newsletter_sends.sql` Creates `hhb_newsletter_sends` table for tracking weekly sends per state.

File 3: `myresolutionpath/supabase/migrations/004_mrp_education.sql` Creates `guide_leads` and `newsletter_subscribers` tables for MRP.

File 4: `myresolutionpath/supabase/migrations/005_newsletter.sql` Creates `newsletter_sends` and `blog_posts` tables for MRP AI pipeline.

Step 3 — Update DB password in credentials

After running migrations, go to **Project Settings → Database** in Supabase dashboard, reset the DB password, and update `/Users/jeffbord/.hhb/credentials.env` line `SUPABASE_DB_PASSWORD=...`
